SAN LEANDRO, CALIFORNIA

SEPTEMBER

1 9 2 9

Dear Flower Grower:

It seems good to write you again about Flower Seeds and Bulbs. Six months time passes rapidly when flowers are in bloom and we can enjoy our gardens, but the six winter months seem longer in the real gardener's calendar unless you are growing your garden plants, ready to put into the ground when Spring arrives.

For years we have urged that our customers NOT TRY TO IMPROVE ON NATURE'S WAYS too much. You know that Nature sows her seed in the Fall. When your garden flowers have bloomed and the seed pods have formed, a breeze usually breaks the pods and sows the seed of both Annuals and Perennials IN THE FALL. The seeds often lay dormant in the ground until Spring, but they are swelling and started at the first break of Spring days. This is the reason the "self-sown" seedlings in your garden always seem stronger plants than those from seed you plant in Spring.

You can take all perennials and almost any annual, sow the seed right up to freezing weather; mark the rows well; cover with leaves if freezing weather comes, and your stand of plants in the Spring will amaze you.

Or you can construct a simple cold frame and sow your seeds in it, for transplanting in Spring.

In any event, it is TIME TO ORDER SEEDS AND BULBS.

We are listing some of the things you need in the next three pages of this letter. You will find new and rare gems for your garden at prices which are based on quality and not on price, although some of our special offers of collections cannot be equalled by other dealers. You can also save money by ordering Spring Bulbs now.

We want to talk frankly to you about another matter: It cost us a certain sum to handle each order, whether it is for 10¢ or \$10.00, This is a fixed charge. From years of experience we know that we lose money on an order amounting to less than \$2.00. For that reason we are going to make you a very special offer - - If your order for seeds and bulbs amounts to \$2.00 or more we will include FREE - one packet of "Sensation" Calendula; one packet new Shirley Poppy "American Legion"; one packet Regale Lily Seed and one packet Australian Pea Vine - - a total of \$1.00 value in free seeds with each order of \$2.00 or more. This offer must be accepted NOW. PLACE YOUR ORDER AT ONCE.

Sincerely yours,

CHARLES G. DAVIS

CGD:EM

NOTE: If you plan to order Dahlias or Gladiolus next Spring, send NOW for our "Trial Ground Price List" and see how much money you can save by placing your order this Fall.

Rare Hybrid Tritomas

GRANDMOTHER
CALLED THEM
"RED HOT POK-
ERS." THEY
STILL LOOK LIKE
POKERS, BUT
OUR NEW HY-
BRIDS RANGE
FROM A CLEAR
CANARY YEL-
LOW TO MA-
ROON

Tritoma, known as the "Red Hot Poker", "Devil's Poker", and by the correct botanic name "Kniphofia" have been highly developed in California, as well as in England in the last few years. Luther Burbank was working on them when he died, and one of his offerings was "The Tower of Gold" Tritoma. We imported 14 varieties from England to test against our own "Chageda Hybrids" which we think are just about the best in the new everblooming type. They are so attractive as a cut flower that whenever we have blooms in our seed plot which we wish to 'rogue' or discard we find a waiting demand from the florists. Our best types of blooms are always saved for seed.

Tritomas do well in any kind of soil, require little cultivation and stand dry locations. They bloom the first year from seed, but do not always come true to color. In cold locations they need protection and our suggestion is to winter them under sand in a cool cellar. They multiply rapidly and an established clump will have 40 to 50 spikes of bloom during one season.

Floricultural writers and visiting nurserymen agree that there is no better strain on this subject than the "Chageda Hybrids". SEEDS OF CHAGEDA HYBRID TRITOMA—per pkt \$1.00; 1/8 oz. \$2.50. STRONG ROOTS OF CHAGEDA HYBRID TRITOMA—assorted colors; seedlings 9 months old, in splendid condition for planting out in mild climates or in tubs in conservatories, \$1.50 per doz. prepaid. DIVISIONS OF STRONG FIELD CLUMPS, TRUE TO COLOR, CHAGEDA HYBRID TRITOMA IN THREE COLOR GROUPS (Yellow, saffron and gold), (yellow base with a red top) and (coral, flame and maroon); price on any of the three color groups: 3 divisions for \$1.00; 12 for \$2.50 prepaid. Small clumps, any color as above: \$1.00 each, prepaid. TRITOMA "TOWER OF GOLD" (Burbank), same price as Chageda Hybrids.

Chageda Hybrid Tritoma grow from 3 feet to 7 feet high and are everblooming. We also have them in common strains, such as Pfitzerii at standard prices.

Winter Sweet Pea Seed

The following varieties are "Early" or "Winter Flowering" Spencer Sweet Peas, the sorts which produce the blooms you buy in zero weather. This seed can be used in planting outside as well as under glass. Only the best varieties, which have been thoroughly tried, are listed here. All White, Amethyst, Aviator (Dazzling crimson-scarlet), Blue Bird, Chevalier (rose), Columbia (salmon-pink with white wings), Fair Maid (blush pink and salmon on white ground), Glitters (cerise-scarlet), Harmony (Standard lavender), Hercules (very large pink), Illumination (salmon-cerise), Miss Louise Gude (pink show type), Rose Dore, Snowstorn, The Beauty (fiery rose), Torch (salmon-rose), True Blue, Vulcan (scarlet) and Zvolanek's Rose—any of above or mixed—pkt. 15c; 45c per 1/2 oz.; 75c per oz.

Eldorado (new orange-salmon), Grenadier (new scarlet), Imperial Pink, New Blue, Orange King, Pink Cherokee—25c per pkt; 75c per 1/2 oz.; \$1.25 per oz. One packet each of nine of the above varieties of our selection (value not less than \$1.50)—OFFER C-38—\$1.00

"Hits" at the Flower Shows

The Summer Flower Shows are over and our exhibits in them have been the center of attraction. In this manner we can tell our customers in distant points which of the new and old varieties of flowers have been the most popular and attracted most interest.

For your convenience we list the seeds and bulbs of the following varieties, which we consider made the "hits" of the shows, both in our own exhibits, and those of other growers.

LUNARIA BIENNIS (Hardy Biennial). Known as "Honesty" and liked because of the silvery, transparent seed pods about the size of a silver quarter, through which the seeds may be seen. Pkt. 15c.

THALICTRUM Dipterocarpum (HP). Tall growing plants, similar in flower to Gypsophila but more graceful and lilac rose in color. Largely used as a filler in bouquets. Pkt. 25c; trade packet 50c.

ERYNGIUM Amethystinum (HP). A splendid plant three feet, with clover-like heads of hazy blue flowers which can be used as an everlasting. One of the most attractive in our display. Pkt. 25c.

BURBANK'S BLUE PETUNIA (HA). In mild climates this is a perennial, throwing thousands of blooms of a nearly blue purple and exceptionally attractive, with delicate fragrance. As a bedding plant we know of no equal. Pkt. 25c; trade packet 50c.

GERALDINE FARRAR (Gladiolus). Because of the color and splendid placement of the flowers, it has been a decided feature in our Spring exhibits. Nearly blue in its lavender color, it has a violet spot on lower lip. The florists rave about it. Large bulbs 50c each; \$5.00 per dozen. Medium sized bulbs 25c each; \$2.50 per dozen; bulblets 25 for \$1.00.

MARMORA (Gladiolus). Grayish lavender color with an old rose blotch. Flowers of great size with many open at once. Large bulbs \$1.00 each, \$10.00 doz.; Medium bulbs 50c each; \$5.00 dozen; bulblets 15 for \$1.00.

THE ORCHID (Gladiolus). Almost every Corsage Bouquet we saw in the shows this summer used "The Orchid" Glad as the filler. It is a decided novelty of lavender pink on a paler flushed frosted surface, with edges beautifully lacinated and ruffled. Hard to tell from an orchid when made up. Large bulbs 25c; \$2.50 dozen; medium bulbs 15c each, \$1.50 dozen; bulblets 50 for \$1.00.

SALPIGLOSSIS Velvety purple (HA). All of our Salpiglossis was much admired because of the unusual size and brilliant colorings, but the velvety-purple was the one shade folks lingered over more than the others. Pkt. 25c; mixed Salpiglossis, pkt. 15c.

CALENDULA Sensation (HA). Because of the long stems and very large blooms it attracted great attention. Flower is an orange with scarlet sheen. Flat, rather than ball. Much used in greenhouse forcing. Packet 50c; 1000 seeds 90c.

ECHIUM (Tower of Jewels). Half hardy biennial which attracted tremendous interest both in the garden and at the flower shows. The flower spikes average 6 feet high in pyramid form and are a foot through at base. The entire spike is covered with thousands of small rose pink flowers, making a most attractive planting for borders and can be used anywhere Foxglove is used. Likes dry, poor ground and requires little cultivation.

Sow seeds now for bloom next season. Pkt. 50c.

CELOSIA Plumosa (hHA). Often used as a greenhouse crop. Great plumes of gold and crimson. Either color 25c pkt.

STATICE SINUATA (HA). One of the showiest of everlasting flowers having clusters or heads of bloom easily dried. Blue. Pkt. 25c.

AGAPANTHUS Umbellatus (tP). Blue Lily of the Nile. In mild climates this plant makes a fine clump for the lawn. In colder climates it is used for a conservatory plant, growing in tubs and almost constantly in flower. Strap-like leaves similar to the Amaryllis, which are evergreen. Bloom spikes 2 to 4 feet high, carrying clusters of 30 to 40 blossoms of a brilliant blue. Blooms last a long time on plant or when cut. Strong divisions of field grown roots. Large size \$1.00 each; small size 50c each; large clumps \$5.00 each; small clumps \$2.50 each.

STACHYS Lanata (HP). "Lamb's Ears." Attractive plant with woolly leaves useful in rock gardens and borders. Our strain is especially dwarf, seldom growing more than 5 inches. Pkt. 25c.

SAINTPAULIA (tP.) African Violet. Free flowering pot plant with leaves like a gloxinia. Blue, violet-like flowers. Pkt. 25c.

GAILLARDIA Trailing (HP). A sport from the Grandiflora type which can be trained along the side of a building to about 5 feet high. Blooms resemble the Dazzler type. Pkt. 25c.

Gorgeous Delphinium

STATELY
SPIRES
OF THE
RAINBOW'S
MOST
GLORIOUS
HUES.

Never have we seen such splendid spikes of Delphinium as those shown in the West Coast Flower Shows this year. The tremendous interest which the buyers of cut flowers have shown in Delphinium have caused the commercial growers to plant it by the acre and to help in the development of new types and improved strains which are far ahead of the strains of a few years ago.

We have spent considerable time in selecting specimens of the new Wrexham Hollyhock Type for seed parents, and believe that our new crop of seed, which is now ready will throw spikes of unusual combinations of color and great size of individual bloom.

WREXHAM HOLLYHOCK TYPE DELPHINIUM. Tall spikes, 4 to 6 feet, with individual flowers of great size. About 50% are doubles or semi-doubles. Seeds ready now—50c per pkt; \$1.00 per 1000.

SPECIAL WREXHAM HOLLYHOCK TYPE Selected pastel shades—\$1.00 pkt.

SPECIAL WREXHAM HOLLYHOCK TYPE Selected pastel shades—\$1.00 pkt.

STRONG ROOT DIVISIONS WREXHAM HOLLYHOCK TYPE; 2 years old, and assorted colors—50c each; 3 for \$1.00; 12 for \$2.50 prepaid.

VANDEBILT HYBRID DELPHINIUM. This strain has come to be known as the Florists' Strain because of the splendid spikes which open the full length at one time. The colors are exceptionally clear and the pastel shades predominate. We find them better for cut flowers than the Wrexham Strain. Our seed in this strain is raised for us by Major Vanderbilt in his own garden, where no other type than his grows. Fresh crop is ready now.

VANDEBILT HYBRID DELPHINIUM SEED 50c per pkt; \$1.00 per 1000.

VANDEBILT HYBRID DELPHINIUM SEED saved from double flowers only, and guaranteed to produce at least 85% double and semi-double flowers—\$1.00 per pkt; \$2.50 per 1000 seeds.

STRONG ROOT DIVISIONS VANDEBILT HYBRID DELPHINIUM; 2 years old and assorted colors—50c each; 3 for \$1.00; 12 for \$2.50 prepaid. Baby seedlings \$1.50 per dozen assorted colors. Specimen and exhibition selected divisions of doubles—\$1.00 to \$10.00 each.

Gladiolus and Dahlias

Both our Gladiolus and Dahlia Lists are ready in temporary, or what we term "Trial Ground" Lists with prices which are very attractive. Do you know that you can save considerable money by ordering your bulbs of these two flower subjects in the Fall? All Dealers have a special Fall Discount and ours is always very attractive because we believe that Fall is the proper time for you to order both Dahlias and Gladiolus while the memory of the types and colors will enable you to make a selection which will bloom to your satisfaction next year. Send for our "Trial Ground List" of Dahlias and Gladiolus if you are interested in ordering now.

Alstromeria Aurantiaca

Known as "The Chilean or Peruvian Lily" and one of the most popular of summer cut flowers in California. Lasts a long time when cut, the spikes of orange-yellow flowers being spotted red, and carried on long and stout stems. Plants grow 2 to 4 feet high and bloom June to August. Tubers should be set 6 inches deep with sand surrounding. Sometimes do not bloom until second season. Require protection in cold climates. Ready for shipment now. Strong divisions 30c each; 3 for 75c; 12 for \$2.50.

Amaryllis Hybrids

Intended for growing in pots and a splendid strain ranging in colors of bloom from white grounds with markings to self colors of cerise and scarlet. We have a choice mixture of assorted bulbs. 75c each; \$7.50 per dozen postpaid in U. S.

Regale Lilies

This magnificent hardy lily from China has grown in popularity whenever grown. Thrives in any good soil where there is drainage; grows from 3 to 5 feet; blooms beautiful white with throat of primrose yellow and shell pink exterior. Large bulbs 75c each, \$7.50 dozen; medium bulbs 50c each, \$5.00 dozen; small bulbs 25c each; \$2.50 dozen. October and November delivery postpaid in U. S.

Choice Iris Collections

THIS IS YOUR
OPPORTUNITY
TO START AN
IRIS GARDEN
AT VERY LOW
EXPENSE.

EACH VARIETY IN
THESE COLLECT-
IONS IS LABELED
WITH NAME.

IF YOU BOUGHT
THEM SEPARATE-
LY THE COST
WOULD BE MORE
THAN DOUBLE.

Plant Iris for a lasting Garden Effect. They bloom among the first in the season, require little care and have a foliage which adds to the attractiveness of both Summer and Fall garden.

One of our collections of Iris planted this Fall will bloom abundantly next season, and will multiply so rapidly that in a year or two your Iris Garden will be quite extensive.

Your attention should be called to the many offers of Iris being made by other dealers at low prices. Not all, but in many cases the Iris shipped to you are seedlings which have been discarded by the dealer. In our case EVERY IRIS RHIZOME SHIPPED YOU IS A NAMED VARIETY WITH THE LABEL ATTACHED. Out of about 150 varieties we have selected a collection without equal for the price offered. A wide range of colors of the most modern types. Don't confuse the modern Iris with the old "blue Flags" which were the gems of Grandmother's Garden. Modern Iris has moved ahead in its development, and grows well in any section of the country.

OFFER #C-54—12 STRONG IRIS ROOTS, EACH DIFFERENT AND EACH WITH NAME ATTACHED. Sent prepaid in the U. S. —\$2.00.

OFFER #C-55—45 STRONG IRIS ROOTS; 3 EACH OF 15 DIFFERENT VARIETIES WITH NAME ATTACHED. Prepaid in U. S. —\$5.00.

OFFER #C-56—125 STRONG IRIS ROOTS; 5 EACH OF 25 DIFFERENT VARIETIES WITH NAME ATTACHED. Prepaid in U. S. —\$10.00.

These Flower Seeds Should Be Ordered Now

Half the sport in gardening is in raising your plants from seed, and the fortunate few who have greenhouses have done this for years. If you have a sunny corner in your yard or garden you can easily build a small Cold Frame at a cost of two or three dollars which will make a perfect place to start seed. To help you in this we have a special circular on constructing a Cold Frame which we will send on request when you order seeds from us. The following varieties are adaptable for immediate planting in the greenhouse or cold frame and will make you fine plants, ready to set out in the garden in early spring. If you have a sunny window in your home you can also start seeds in pots or pans and get the same result. ORDER THESE SEEDS AT ONCE.

	Per 1000 Seeds		Per 1000 Seeds		Per 1000 Seeds
ACHILLEA Ptarmica, The Pearl (HP) Easy culture. Double white flowers. —	\$.25	CINERARIA (Greenhouse Plant) Suitable for outdoor planting in mild climates. Gorgeous colored blooms. Varieties: Semi-Dwarf Hybrids, large flowering, exceptionally choice. Pkt. 50c —	\$1.50	LORD BEACONSFIELD; blue-violet. Pkt. 15c —	\$.45
AGAPANTHUS Umbellatus, "Blue Lily of the Nile" (TP). Conservatory plant. Pkt. 25c —	.75	Tall Hybrids, mixed colors. Pkt. 25c —	.90	DARK EYE YELLOW. Pkt. 25c —	.60
ALYSSUM Saxatile, "Gold Dust" (HP) Rock gardens and borders. Pkt. 10c —	.20	COREOPSIS LANCEOLATA (HP). Golden yellow. Single flowered. Pkt. 10c —	.25	PENTSTEMON (HP). "Sensation". New Hybrids much improved. Pkt. 25c —	.75
ALYSSUM Compactum (HA). Border plants. Varieties: Lilac Queen, Little Gem White, Sweet White, or Lutescens, cream, —	.10	Semi-double flowered. Pkt. 25c —	.45	PETUNIA (HA). Grown as a perennial in mild climates. For such locations it is best to sow about November. For greenhouse use sow from October to May. Our stock is all fresh seed of highest quality, most of it being hand hybridized and grown here in our own gardens. Varieties:	
ANCHUSA Capensis (HA) "Summer Forget-me-not". 24 inch blue spikes. Pkt. 10c —	.25	DAISY—SHASTA (HP) Chrysanthemum Leucanthemum, "Alaska". Pkt. 10c —	.30	Burbank's Blue; perpetual blooming, nearest to blue. Pkt. 25c —	.60
ANCHUSA Italica (HP) "Dropmore Variety". 6 foot spikes of gentian blue. Pkt. 25c —	.75	DIDISCUS COERULEA (HA) Blue Lace Flower. Popular for cutting. Pkt. 15c —	.45	Balcony Blue, Balconk Pink, Balcony White or mixed; type used in window boxes and bedding. Pkt. 20c —	.45
ANTIRRHINUM (HA) Snapdragon. Grows well as a biennial. In the large-flowered medium tall we have: Amber Queen, Crimson Queen Defiance (Orange-scarlet), Gloria (Rose-pink), Golden Queen, Pink Perfection, Purity (white), Silver Pink, or Mixed; any of above colors Pkt. 10c —	.30	DIGITALIS (HP) Foxglove. Giant Shirley Strain. Spotted flowers; mixed colors in white, purple and rose. Pkt. 10c —	.20	Giants of California; all single Petunias of great size. Pkt. 35c —	.75
In the large-flowered tall we have: Coral Rose, Gold King, Harmony (terra-cotta orange), Queen Victoria (white), Rose Queen, Scarlet or mixed. Pkt. 10c —	.30	FORGET-ME-NOT (HP) Myosotis. The old favorite. Colors: Blue, Pink, White or Mixed. Pkt. 10c —	.25	Ruffled Giants, mixed colors; large flowers heavily ruffled. Pkt. 50c —	.90
In the large-flowered giant or 'maximum' type we have: Apple Blossom (pink and white), Canary Bird (yellow), Copper King, Old Gold, Snowflake, The Rose or mixed. Pkt. 25c —	.60	GAILLARDIA (HP) The Blanket flower. Splendid for cutting. Scarlet center, golden tipped. Varieties:		Deep Violet Bedding. Pkt. 25c —	.45
AQUILEGIA (HP) Columbine. Free blooming border plant. Splendid strains, of which Mrs. Scott Elliott Strain is the best.		Grandiflora. Pkt. 10c —	.30	Pink Bedding. Pkt. 25c —	.45
Long Spurred Pink Varieties. Pkt. 25c —	.45	Portola Hybrids. Pkt. 25c —	.75	Mixed Bedding. Pkt. 25c —	.45
Long Spurred Blue Varieties. Pkt. 25c —	.30	Dazzler (New). Pkt. 25c —	.45	Fringed Edge Mixed. Pkt. 50c —	.90
Coerulea (blue and white). Pkt. 25c —	.30	Trailing (New. 5 feet). Pkt. 25c —	.75	Double Mixed. Pkt. \$1.00 —	1.80
Chrysanthia (pale yellow). Pkt. 25c —	.30	GERBERA (hHP) Transvaal Daisy. Johnsonii Hybrids. Pkt. 50c; 3 pkts. \$1.00.		See our next regular catalog which carries Petunias in separate colors.	
Mrs. Scott Elliott Strain. Pkt. 25c —	.45	GEUM (HP) Increasingly popular. Easily raised. Varieties:		POPPY Iceland Nudicaule (HP). Splendid for cutting and a good greenhouse crop. Varieties:	
Mixed. Pkt. 15c —	.25	Mrs. Bradshaw (brilliant red). Pkt. 15c —	.75	Aurantiacum; the popular brilliant orange. Pkt. 15c —	.30
AUSTRALIAN PEA VINE (tPC) Dolichos Lignosus. Popular Greenhouse Climber used outdoors in mild climates. Pkt. 15c —	\$1.50	Lady Stratheden (yellow). Pkt. 15c —	1.50	Hybrids; splendid new shades. Pkt. 15c —	.30
BELLIS Perennis (HP) English Double Daisy. 4-inch daisy for edgings. Very popular. Long-fellow (double rose); Snowball (white) or Mixed —	.15	GOETIA (HA). Very hardy annual; old, but this strain vastly improved. Colors: double Carmine, Crimson, Mauve or mixed. Pkt. 10c —	.30	POPPY (HP). Oriental. scarlet. Pkt. 10c —	.30
CALENDULA (HA) Pot Marigold. Usually sown in the Fall in mild climates and now extensively grown as a greenhouse crop. Gives you color through the cold months. We have the following varieties:		GYPHOPHILIA (HA) Elegans; "Angel's Breath". Plant it often. White or Rose. Pkt. 10c —	.25	POPPY (HP). Oriental Hybrids. Pkt. 10c —	.30
Orange King. Pkt. 10c —	.45	GYPHOPHILIA (HP) Paniculata. The florist's standby for bouquet fillers. Varieties:		PYRETHRUM Aureum (HP) Golden Feather; Compact grower; golden foliage. Pkt. 10c —	.15
Lemon Queen. Pkt. 10c —	.45	Single White. Pkt. 10c —	.30	PYRETHRUM ROSEUM (HP) Daisy like flowers. Single Roseum. Pkt. 15c —	1.20
Ball's Gold. Pkt. 25c —	.60	Double White. Pkt. 25c —	.90	Double Hybrids Mixed. Pkt. 50c —	3.30
Meteor (Orange striped yellow), Pkt. 10c —	.45	HEUCHERA SANGUINEA (HP) "Coral Bells". The crimson favorite for borders —	.25	RANUNCULUS (HP) Giant French Hybrids, making bulbs first year. Pkt. 25c —	.60
Sensation (New, extra large orange, with long stem). Pkt. 50c —	.90	HOLLYHOCK (HP) Easily raised. Varieties: Chater's Double; Rose, Red, Maroon, White, Pink, Carmine or Mixed, any color. Pkt. 10c —	\$1.50	SCABIOSA (HA) Pincushion flower. These are improved strains, fully double and sweet scented. Colors: Rose, Scarlet, Black, Flesh Pink, Azure, White or Mixed. Pkt. 10c —	.25
CAMPANULA Medium Calycanthema (HB) Cup and Saucer. Popular bedding plant in which we have the following colors: Blue, Pink, Lavender, White or Mixed. Pkt. 15c —	.45	LATHYRUS LATIFOLIUS (HP) Everlasting Pea. Should be more often grown. Varieties:		SCHIZANTHUS (hHA) Fringe flower. Used largely in pots under glass. Very choice strains: Grandiflorus Strain. Pkt. 10c —	.25
CANDYTUFT—IBERIS Gibraltaria (HP) Perennial Candytuft. White blooms shading to lilac. 12 inches high. Pkt. 15c —	.45	White Pearl; 5 feet. Pkt. 15c —	2.40	Wisetonensis Strain, rose and amber shades, very fine. Pkt. 25c —	.45
CARNATION (hHP). Chabaud's Giant Improved Strain. About 90 per cent double. We can furnish: Salmon Rose, Rose Pink, White, Yellow, Crimson or Mixed. Pkt. 15c —	.75	Pink Beauty. 6 feet. Pkt. 15c —	1.80	STOCKS (HA). In mild climates are best sown in Fall. Splendid greenhouse crop. Most satisfactory variety is "Beauty of Nice" strain which grows both as Winter and Summer Strain. Varieties. Lavender pink, Flesh, Old rose, Crimson, White, Yellow, Violet, Silvery lavender or Mixed. Pkt. 15c —	.60
CARNATION (hHP) Marguerite, Mixed. Perpetual blooming. Mostly double. Pkt. 10c —	.30	Red; 7 feet. Pkt. 15c —	1.50	SWEET WILLIAM (HP) Dianthus Barabus. Single Mixed. Pkt. 10c —	.30
CHEIRANTHUS ALLIONI (HP) Hardy Siberian Wallflower. Brilliant yellow bloom; fine for rock work. Pkt. 10c —	.30	LILIUM REGALE (HP) Th Regale Lily. White flowers shading to yellow center. Extremely hardy; easily grown. Pkt. 25c —	.90	Double Mixed. Pkt. 15c —	.45
CHELONE (HP) Barbata Torreyi. Brick red border flower. 4 feet. Pkt. 10c —	.30	LUPINUS Hartwegi (HA). Splendid for cutting. Colors: Dark blue, sky blue, rose or mixed. Pkt. 10c —	.45	VERBENA (HP). Usually grown as an annual or as a biennial. White, scarlet, blue, yellow or mixed. Pkt. 10c —	.30
		LUPINUS Polyphyllus (HP) Perennial Lupine. Colors: White, Rose, Blue or mixed. Pkt. 10c —	1.50	VERBENA HYBRID GIANTS (HP). The new type with white and yellow eye. Large. Pkt. 15c —	.45
		MIGNONETTE (HA) Grandmother's Favorite. Varieties:		VIOLA CORNUTA (HP) Tufted Pansies. Few bedding plants last over such a long period. Colors: White, blue, yellow or mixed. Pkt. 15c —	.60
		Golden Queen. Pkt. 10c —	.30	WALLFLOWER (HP). Usually grown as a biennial. Double biennial mixed. Pkt. 25c —	.75
		Goliath, Red. Pkt. 10c —	.45		
		Machet mixed. Pkt. 10c —	.30		
		Redsea Odorata—(sweet). Pkt. 10c —	.25		
		MIMULUS Tigrinus (hHP) "The Monkey Flower". Yellow to crimson. Pkt. 10c —	.25		
		PANSY (HP) We have the finest strains. MASTERPIECE Ruffled. Pkt. 25c —	.60		
		GIANT TRIMARDEAU. Mixed. Pkt. 15c —	.45		
		CHAGEDA HYBRIDS. Our selection. Pkt. 50c —	.90		
		SWISS GIANTS. Very large. Pkt. 50c —	1.50		

It should be a satisfaction for you to buy your seeds from the grower. WE GROW MOST OF THE VARIETIES WE SELL and in addition, have extensive test gardens at San Rafael and Joaquin Avenues, San Leandro. This year we have six seed plots, where the varieties are widely separated to preserve quality of the strains. We grow flower seed and bulbs for more than a thousand Seedsmen and Florists. They are very particular buyers who have found that the best is cheap at any price. It would be well for you follow the example of these experts. Buy your seeds HERE. If you are in our vicinity at any time, join the thousands of visitors who enjoy our test gardens, where there are flowers in bloom in the open every day of the year. Test rows of Gladiolus and Dahlias are grown here in San Leandro, but our stock for sale is field grown at the Castro Valley Ranch, on new soil each year.
